

Here we are at the end of another season, 2022 certainly allowed for a much-needed return to form for much of the water sports world! Clubs, Camps, Schools and Public access water ways certainly found ways to bounce back from a couple of difficult seasons and I can remember seeing water ways packed with boating enthusiasts of all kinds no matter what the weather!

I want to use this report to thank our ever-expanding membership base. All of us on the Waterski Wakeboard Ontario (WSWO) board are thankful for your commitment to support our organization. Without the variety of disciplines across Ontario, WSWO could not exist as it does. We are hopeful that our growing programs which are meant to help provide opportunity to all members regardless of which type of water sport you prefer is showcasing our appreciation accordingly!

Additionally, I want to formally thank our Board of Directors. These volunteers work tirelessly, communicating with the Government of Ontario, working to fulfill the needs of our membership base, and doing their best to continue to be innovative in the way that WSWO evolves with the rapidly changing environment surround the use of waterways, both public and private. These positions often require tough decision making and require extra hours at the end of the work week to ensure programming is in place for the coming season while also closing out the previous. I cannot express my gratitude enough for everyone who willingly gives their time on this board. Thank you!

I would also be remiss if I did not acknowledge the incredible job that Jaclyn does for us in the WSWO office. She is an incredible asset to our organization and I know I speak for the entire board when we say that we are so grateful for her time and effort on our behalf.

In conclusion, all of us at WSWO look forward to 2023 with much anticipation and we are hopeful that everyone is doing the same! Although there are a number of cold winter months ahead, I know that many of you will be getting in the water as soon as the ice thaws. WSWO will continue to advocate for our members with the Waterski Wakeboard Canada Board and the Ontario Government in hopes of creating an even better season for 2023! Until then, stay safe!

Sincerely

Andrew Bergman Waterski Wakeboard Ontario President

Ontario was once again well represented on the international stage, with many of our skiers globetrotting to compete at the senior worlds, the Pan Am's and numerous prestige events in the U.S. Our emphasis on hosting world class, Record Capable/ World Ranking List sanctioned events has helped our skiers of all ages to gain the scores necessary to compete at world class events.

Unfortunately, staging RC/WRL sanctioned tournaments continues to strain the limited availability of the necessary officials needed to stage these tournaments. We will continue to schedule Class 1 rated tournaments through 2023 in an effort to help develop more officials who can be rated for record events. Ontario is blessed with so many sites suitable for competitive skiing, and while scores from Class 1 tournaments are used for Water Ski Canada ratings, they are also ideal for introducing new skiers to competition through the Learn-to-Compete class. They are the necessary base for developing the officials we so desperately need to continue at all sanction classes. Class 1 tournaments are typically run to RC/WRL standards (almost all of the tournament sites on the schedule have been homologated to RC standards) but are always more relaxed. And most offer more rounds per day, meaning more skiing, better value and more fun!

The Ontario Junior Team program with its multi-level system and managed so successfully by Jason and Jaime McClintock continues to flourish, bringing both new excited faces and exceptional athlete development. This program is unique to Canadian water skiing. Not only is it producing exceptional athletes, it is also developing wonderful young people. We can be proud of all of them for their dedication and commitment. Congratulations to Jason and Jaime for doing what they do so well.

The heart of Ontario Water Ski I beats with the many families who make our sport possible. Unlike so many sports where children and parents come and go on their own, water ski has a special and unique family element. Regardless of who skis - child, mother, father, all or just some – the family attends an event together. They socialize and encourage collectively. They share the successes, the highs and the lows, always with good spirit and enthusiasm. Our seasons would not be the same without the family involvement that makes Water Ski what it is.

Moving into 2023, Water Ski will be investing heavily in new technical equipment geared to meet the demands of WSWC and the IWWF. New cameras, video recording and replay systems combined with more reliable wireless transmission/receiver sets will ensure our tournaments are easier to set up and use for all concerned. As we saw with the addition of SurePath in 2021-22, new technology improves the quality of our events and ensures we meet the highest international standards. As has been the case for many years, having good equipment is only as good as the people behind it, and again our hats are off to the "A-Team" - Jeff McClintock and Ted Collins, ably assisted by Terry Jones, without whose combined talents, expertise and commitment Water Ski could not function.

2023 promises to be another exciting year for Traditional skiing. The support from the Water Ski Wakeboard Ontario Board of Directors and the exceptional work from Office Administrator Jaclyn Cavasin makes an inspired, committed team that will guarantee our success. Beyond the board - to all of our members - there is room for volunteers to help with all aspects of Traditional Water Ski. Be assured that you don't have to be on the BoD to make a difference. Step up, step in and make things happen!

To all of the athletes, the parents, the officials and the hosts, thank you for another great year. We look forward to seeing you all again in 2023.

On behalf of the Water Ski Committee,

Stephen Collins, Chair, WSWO Traditional

A private treed lake, full of fish and birds. A brand new Malibu ski boat. A warm sunny day. An experienced coach. This all greeted our novice skiers, aged from 7 to 11, as they arrived to Loch Cameron, Carp, Ontario to put on waterskies for the first time. Our goal was to have novice girls come to ski and progress during a 3 day ski camp.

Instead of excluding boys, who also wanted to learn to ski, we found a representative focus for our camp, the "Bring your Sister camp". Boys were welcome and were encouraged to bring their sister, neighbour or any other girl that they knew who might want to learn how to ski.

Each participant had rapid skills development and completed up to 4 "sets" per day.

The oldest participant transitioned though skiing with two skis and could get up briefly on one. We know that her water skiing career will be bright!

All successes were captured by our budding photographer Alec Allison.

It takes a village to teach skiing, and we had a village! We had volunteers baking vegan sweets, chopping vegetables and fruit, shuttling equipment of all sizes across the city and sourcing shore supervisors. We needed in-between ski activities so enter spear fishing, marshmallow roasting, nail polishing and make up application. The site was groomed, sprayed for wasps and raked for days prior to the camp.

The last day and twelfth set were celebrated with a BBQ and dessert. We hope that everyone continues with their skiing and hope to have our novices all return in the future, maybe this summer, to start to tackle the 6 buoys that make up the waterski course.

As the owners, we learned as much as the skiers did during this event. We learned that novices of this age learn fast, can eat lots of cut up fruit and appreciate the little things about the lake including sticks that can be made into spears to try and catch fish. They focus more on their successes than their failures and found great camaraderie, as well as escape from the city. We caution anyone starting a ski experience with younger skiers as you will need a manager on shore, as there is a lot of energy there!

Funds were generously offered from the Ontario government through Water Ski Wakeboard Ontario to help defray the costs of the experience. With this funding the skiers had a great launch into the sport. The lake was essentially shut down for the camp, so that play could happen between skiing adventures. We felt that it was important to try and include children in our program, but in a way that was fun and separate from the membership. Most of our membership don't see the fun in trying to catch fish with a stick between sets!

The youngest participant, at 7 years old, had the greatest style points and made all the way down the lake on the boom.

At the end of three days we had one participant skiing loops around the lake on one ski, hanging on with one hand at the corners. He had long left the other ski behind. We are not sure where he will end up as he also likes racing bikes.

Page 6 WAKES /// Dare To Get Bare WAKES /// Dare To Get Bare Page 7

On Monday, July 25th Water Ski Wakeboard Ontario hosted a fantastic day on a lake near Puslinch, Ontario.

People with different types of disabilities were given the opportunity to try water skiing, most for the very first time! It was a sunny day that shone down on the participants and shed a light on the opportunities available to participate in adaptive sports.

The sense of community throughout was incredible.

People who were newly injured were able to speak with those with lived experience and get inspiration about how they can live their life going forward. They got to experience firsthand that while the view may be different than before there is still opportunity for a thrilling ride.

The Unstoppable Tracy Schmidt showed that a positive attitude and a thirst for life can lead you to a world of new and wonderful experiences.

One of SCIO's Regional Services Coordinators Hayler
Geller-Klein, who was on hand to help with the day
commented "this day provides people with such freedom.
They get on the water and they feel so free!"

WAKES /// Making a Splash

Page 8 WAKES /// Making a Splash WAKES /// Making a S

For many, this was the first social gathering in over two years. This wouldn't have been possible without the help and support of our incredible volunteers including Paul Roberts the site and boat owner, National WSWO Coaches Dave Wassil, Lisa Williams and Jake Thomas and Nimbus HR Solutions volunteer Carrie Thomas. A special thank you to Nimbus HR Solutions for the tasty lunch.

After the thrill of the waves, some of the participants were even able to try out Jake Thomas's nifty off-road three-wheel handcycle to see yet another adaptive sport. Jake has spoken to our community before about the healing properties of sport and how the joy of getting back on the water after his own injury helped him to realize he could still enjoy the activities he loved before, he was just closer to the surface now!

Thank you to all who made this wonderful day happen and thank you to the participants who took the opportunity to experience the freedom and thrills of the day. The feedback was so positive with so many saying they would do this again. With the right planning and supports, we hope we can.

There is one thing for certain about show skiing in Ontario: Our athletes are incredibly passionate about the sport.

With a dedicated committee of Todd Hounsome, Lindsay McKenzie, Charlie Newlands, Sandy Becherand Jordan Long, we weathered the COVID storm and have been able to select the most talented team of skiers that have ever come together to represent Canada for the 2022 tournament. Show Ski Canada's future has never looked better.

The pandemic gave us the time necessary to plan and create the new Show Ski Canada Development Team. Which now is a great feeder program for young athletes to get involved with show skiing. With thousands of people watching waterski shows in Muskoka, Ontario every summer, we knew that there was a greater pool of recreational cottage waterskiing to tap into and grow the sport of show skiing in our country.

In the summer of 2020, a development team application was advertised on social media and we formed a team of 35 brand new show skiers, keen and ready to learn how to perform the tricks they've watched in ski shows for years. Lindsay McKenzie (a show ski veteran and committee member) was given the monumental task as program director of the Development Team. A program which we hope to grow in the coming years, as we work towards the next worlds in Australia. She collaborated with Longford Mills Ski Club, and with the help of her team members – some of Canada's best show skiers – volunteering time to coach at these clinics, the development team was able to put together an end-of-summer ski show of their very own. It Is amazing that we now have a program and pathway for people to get into the sport.

After only the first season, three development team members were called up to the competitive roster to ski with Team Canada at the 2022 World Tournament

The 2022 World Tournament show production committee consisting, Charlie Newlands (show director), announcers Geoff Hulet and Jim Banting, Avery Ditmars (sound crew), and Jenna Newlands (costumes) have been working hard over the winter to bring our show to life. Show Ski Canada would also like to extend a HUGE thank you to Kevin Hayes and all our friends at Lakeland, our host team! We wouldn't be where we are today with our dedicated committee.

WAKES /// Show Ski Canada Page 11

Show Ski Canada has come a long way in 10 years. We began with a group of passionate waterski friends from a waterski school and show team called Summer Water Sports (SWS) in 2012. Since then, we have been fortunate to join forces with Fern Resort and; their ski school, providing us with a training site, as well as some fabulous skiers. With the support of these establishments, the Show Ski Canada committee has been able to make huge strides over the past couple of years for the future of our program – including starting our development team to bring new skiers in, establishing our funding model to continue growing our sport. Our efforts these past few years have also allowed us to have the largest number of applications to date – over 100 Canadians applied to our program, allowing us to put together our most competitive roster yet! With now 52 people noting skiing as their main interest and 23 people as their second interest on their membership. This will continue to grow as more people get involved with show skiing.

Show Ski Canada performed 2 amazing shows on Saturday and Sunday but fell short of the podium 13.4 points. It was great to see the amazing shows put on by the other countries and see the huge improvements from all the countries. A huge congratulations goes out to Jordan Long for being named Male tournament MVP. This was an amazing honor based on the talent at the tournament. New this year was an individual competition which Team Canada had a very strong showing in.

Geordie Newlands #Letsgoskishow

The 2022 Barefoot season continued to recover from the Covid shutdown.

Ontario Barefoot Council (OBC) organized a series of fun and sanctioned events for the 2022 season.

#### **ICEBREAKER**

The season kicked off on June 19th with a fun slalom, boom trick and trick tournament at Pine Lake in Gravenhurst. Special thanks to the Spence, Henry, and Goddard families for the use of their boats and facilities.

### **DREAM LAKE DAY**

The Ontario Barefoot Council (OBC) returned to Dream Lake, a spectacular site for barefoot that was the site of the 2018 World Barefoot Championships. Unfortunately, that property had changed hands but this summer the new owners, the Eller family, opened the site for the day. With a world class site and perfect conditions, the event ran smoothly.

#### **CANADIAN NATIONAL BAREFOOT CHAMPIONSHIPS 2022**

The 2022 Barefoot National Championships were held at shared sites in the Muskoka area, an area that has not hosted Nationals since 1995!!! Slalom and tricks were at Bush's Watersports Park in Bala while jump and freestyle boom were held on Pine Lake in Gravenhurst. These events never run themselves. The Ontario Barefoot Council (OBC) along with Ryan, Steve and Trevor at Bush's made sure the sites were competition ready. Special thanks to the Brunet & Weekes family for providing the Sanger towboats. Additional thanks to the Spence family for the use of their property for the jump event. World class driver, Richard Gray, flew in from British Columbia to drive the tournament in preparation for his driving duties at the 2023 World Barefoot Championships in Mulwala Australia. Additional judging from world ranked judges, Alan Moynes and Duane Godfrey ensured all competitors had world class officials for this event.

The actual Nationals competition resulted with the overall champions being Brem Allen in the Elite Men's division and Becky Meyer in the Elite Women's division, Mathis Lariviere Boys, Taylor Nullmeyer, Men's 1, Christina Nadalin, Women's 1, Joey Cerutti Men's 2, Daniel Lariviere, Men's 3, Dean Goddard Men's 4, Morgan Allen, Men's 5, Mike Spence, Men's 6, and Ross Holden, Men's 9.

#### **CANADIAN NATIONAL BAREFOOT CHAMPIONSHIPS 2023**

The 2023 Canadian Barefoot Championships are scheduled for August 25-27, 2023, at Canal Soulanges in Les Cedres, Quebec. This site has hosted numerous events over the years. The organizing team led by Daniel Lariviere with the help of the Ontario organizers will once again deliver a world class event. Planned are a boom division for up-and-coming competitors, a kneeboard challenge as well as a Boom Freestyle Event. Mark your calendars!

Page 12 WAKES /// Show Ski Canada WAKES /// 2022 Barefoot Article

#### 2022 IWWF WORLD MASTERS BAREFOOT CHAMPIONSHIPS

Canada was well represented at the World Masters with Canadian team members Gordie Croteau and Marcel Brunet, along with Men's competitor, Bennet Pearl.

Held at the Utopia River Ranch in San Marcos, Texas on September 26 to October 1st, this was the first IWWF event specifically for the Masters division. Congratulations to Marcel placing 6th overall, Gordie placing 16th overall and Bennett placing 24th overall.

Special recognition goes to Gordie Croteau who won the Senior Men's 3 jump event at the 2022 IWWF World Masters Barefoot Jump tournament. He set a Senior Men's 3 world record of 16.8 metres, dominating the jump event. Congratulations to Gordie on his world record jump performance.

# TAYLOR NULLMEYER CANADIAN BAREFOOTER OF THE YEAR FOR 2021

Taylor Nullmeyer was recognized as the 2021 Barefooter at the 2022 Barefoot Nationals

This award is different than the Barefoot Athlete award. The Barefoot Canada Council chooses an individual who contributes to the stability and growth of the sport. When he arrived on the barefoot scene 3 years ago, Taylor's enthusiasm for the sport was infectious. His encouragement to other competitors has grown the ranks of the younger divisions. Taylor has pushed himself to improve his skiing skills beyond his perceived abilities year after year! As a member of Show Ski Canada as well, Taylor's overall passion for towed water sports is evident

Taylor dedicates much of his time to training both on and off the water, as well as developing and supporting other barefoot athletes. His positive attitude, stoke, and volunteerism in helping develop the Barefoot Canada social media has helped to promote the sport and garner new excitement that will be hugely beneficial to growing the sport of Barefooting in Canada. Congratulations to Taylor on this award! Well deserved.

The competition season finished off late in December with Ontario skiers Christina Nadalin, Taylor Nullmeyer, Christian Richards and Duane Godfrey participating in the Mike Salber Memorial tournament in Polk County Florida on December 10th.

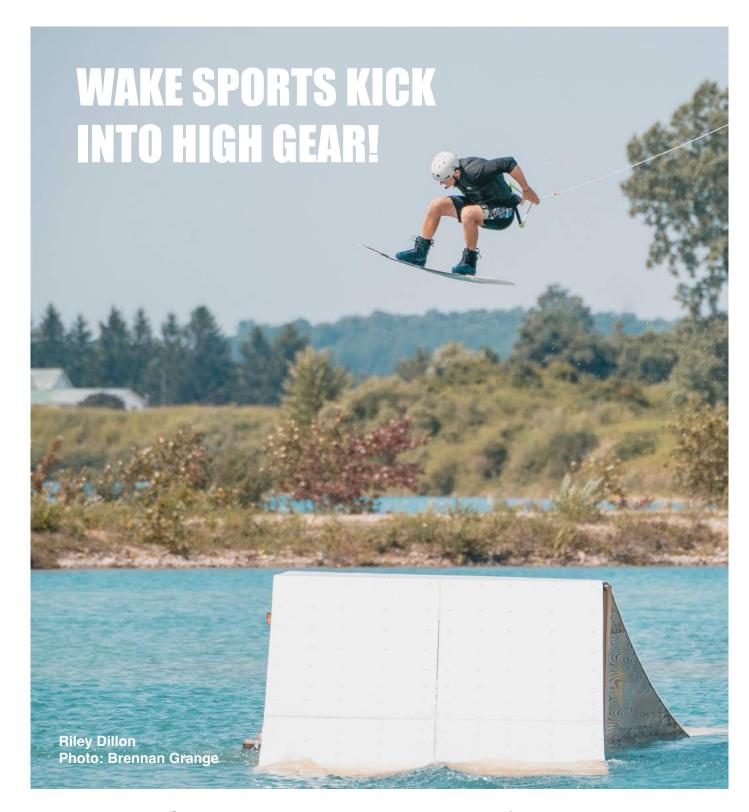

2021 Canadian Barefooter of the Year Taylor Nullmeyer (r) with fellow competitor Christina Nadalin

Page 14 WAKES /// 2022 Barefoot Article WAKES /// 2022 Barefoot Article Page 15

Wake sports in Ontario enjoyed another exciting year of growth in 2022 with more events, schools and camp programs coming back on stream as pandemic restrictions eased! by @wakeontario

Buoyed by a boost in recreational participation and record equipment sales during the pandemic, wake sports further established its prominence as one of Ontario's most popular family water sports. Not only were event competitor numbers up, with strong bumps in novice and women wakeboarders and wakeskaters, but there was also an increase in the number wake sports schools which surged to over 50 across the province.

It's the highest number of wake sports schools operating to date, offering lessons in wakeboarding, wakesurfing, wakeskating and now wake foiling! One of the biggest schools, Muskoka Wake employed 45 instructors to keep up with demand!

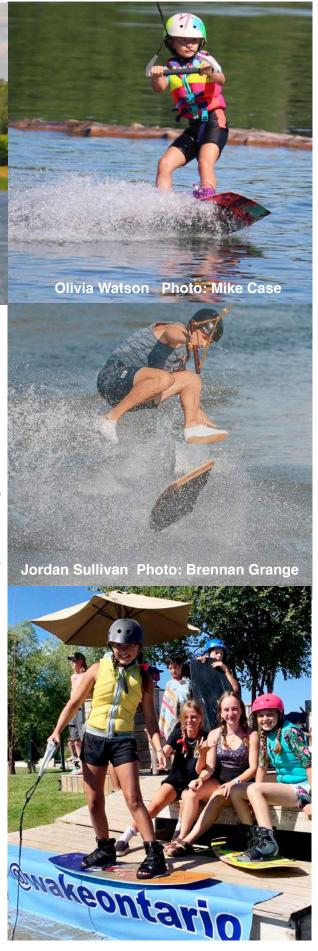

A full list of wake schools can be found at WakeCanada.ca.

# **@WAKEONTARIO SERIES**

Ontario hosted six events this past summer including the National Wake Park (Cable) Championships. The @WakeOntario Wakeboard & Wakeskate Series kicked off with Planet Bayou Wake Park's "Grasscutter Classic" in Shelburne, ON. The "Grasscutter" provided a preview of the course set-up for the Nationals scheduled there in late summer. Featuring it's signature start pool with a mix of down rail, wall and grass rides, Planet Bayou offered a cable set-up with something for every level. Standout riders included: Dary Znebel, Jordan Sullivan, Wake Purdy and Maddox Matte in Pro Wakeboard Men. Coti Scaglia, Kelsey Chiappa, Kat Shirriff and Syd McHugh in Pro Women. Connor Gilbert and Shane Edwards in Junior Boys. Lexi Noakes and Emma Brearley in Junior Women.

The "Own The Stone" event showcased the brand new facilities of Bluestone Wake Park in Clinton, ON featuring separate cables for beginner, intermediate and advanced riders. It was awesome to see such a big turnout in the novice and intermediate categories there! Standout riders included: Coti Scaglia and Kat Shirriff in Pro Women. Riley Dillon and Dary Znebel in Pro Men. Gracie Gilbert and Lexi Noakes in Advanced Women. Connor Gilbert and Cory Znebel in Advanced Men.

The Wake Boat Provincial Championship and Wake Park Provincial Championship were part of the Wake Canada Nationals Series and held on back to back August weekend

Page 16 Page 17

Connor Gilbert Photo: Brennan Grange

Nick Frankruyter Photo: Mike Case

The Wake Park Provincials featured tight battles between Ontario's top National Team riders in both male and female categories. Riley Dillon bested Dary Znebel in Pro Men, while Katherine Shirriff outscored Kelsey Chiappa in Pro Women. Pro wakeskaters Jordan Sullivan and Austin Farr put on high level show of tech and creative tricks with Jordan coming out on top!

Groms (age 13 & under) and Juniors (age 14-18) comprised the strongest competitor fields in years at Provincials. Standouts included Bode Badger in Wake Park 9 & Under Groms; Connor Gilbert in Wake Park Junior Boys; Emma Brearley in Wake Park Junior Girls; Max Dizy in Wake Boat Junior Boys; and Josh Bekhor in Wake Boat 9 & Under Groms!

A special highlight of the Provincials was the Canadian film premiere of the award winning documentary "Au Revoir" chronicling the inspiring career of Canada's Raph Derome, the world's most influential wakeboarder of the past decade!

The high point of the 2022 season was the National Wake Park Championship at Planet Bayou at the end of August. Part of the Wake Canada National Series with Canadian Team points on the line, it was the country's largest Wake Park championship to date, attracting over 90 participants. It also featured the strongest female fields ever in pro women, as well as in novice and 9 & under girls! Ontario's women's camps and clinics run by champion wakeboarders Leslie Sparks (Sisterhood Sessions) and Kelsey Chiappa (What

Wake Park Ladies Nights) played a pivotal role to help grow female participation this past summer!

The podiums at Nationals were dominated by Ontario riders with titles going to: Pro Women: Kelsey Chiappa; Pro Men: Riley Dillon; Pro Wakeskate: Jordan Sullivan; Junior Girls (14-19): Lexi Noakes; Junior Boys: Connor Gilbert; Super Grom Girls (10-13): Ayden Swan; Super Grom Boys: Maddox Rinaldi; Grom Girls (9 & under): Olivia Watson; Grom Boys: Bode Badger.

Complete results and video highlights of the National Series events can be found at @WakeOntario instagram.

The 2022 @WakeOntario Series wrapped up in early September with "Extracurricular Vol. 1" at the Rail Yard Wake Park in Mount Albert, ON featuring a variety of fun, team and social events in addition to age group competitions. Congrats to Dani Brown winning Open Women and Cameron Spalding taking the Open Men!

Shout out to all of the sponsors and supporters of the 2022 @WakeOntario Series and National Series events, including: Planet Bayou Wake Park; Bluestone Wake Park; Rail Yard Wake Park; Ranch Wake Park; Sisterhood Sessions; Northline Sports/Boardsports; Ronix; Hyperlite; Liquid Force; Slingshot; Follow Wake; Mystic Wake; Jordan Shapes; Rip Curl; Sandbox; Dragon; Red Bull and the Province of Ontario.

Special thanks to all of the volunteers who helped out, including: Todd Spalding, Erika Langman, Brennan Grange, Steve Jarrett, Andy Oke, Dary Znebel, Jono Boysen, Jon McTavish, Mike Case, Sydney McHugh; Leslie Sparks, Nick Frankruyter, Nate Wilcox, Bailey McLean, Martin Zeltner and Storey Badger.
