Announcing WSWO's New Board President

May 11, 2026

Dear WSWO Members,

Water Ski Wakeboard Ontario is pleased to announce the appointment of Daniel Hron as the new President of the WSWO Board of Directors.

Dan brings with him more than 25 years of leadership experience spanning consulting, governance, and building management. Most recently, Dan was a Senior Director at CAPREIT, where he was responsible for technical services across more than 40,000 apartment units nationwide. Previously, he has held several executive leadership roles with Schindler Elevators in both Canada and Europe, including General Manager and Chairman of the Board of Schindler Slovakia.

In addition to his professional accomplishments, Dan has extensive board and governance experience, including founding and serving on several non-profit organizations such as the Slovak Association of Elevator Manufacturers, Czech Management Centre, and the International Business Forum. He holds a Bachelor's degree from the University of Ottawa and an MBA from the University of Pittsburgh.

Beyond his impressive professional background, Dan already has strong relationships throughout the water ski and wakeboard community and is someone many within WSWC and WSWO know well and respect. He is an extremely capable leader and, simply put, a great person to work alongside.

As President, Dan plans to continue building upon the vision and strategy established by previous leadership, with a strong focus on supporting grassroots programming, increasing the development of officials and drivers, and continuing to grow awareness and participation in our sport across Ontario.

We would also like to extend a sincere thank you to Andrew Bergman for his many years of outstanding leadership, support, and guidance on the WSWO Board. Andrew's dedication and commitment to the organization have played a significant role in supporting and advancing water ski and wake sports throughout the province, and we are incredibly grateful for his service.

Please join us in welcoming Dan into his new role and thanking Andrew for his tremendous contributions to WSWO!

Looking forward to a fun summer on the water!
